JACKSONVILLE, Fla., May 15, 2018 (GLOBE NEWSWIRE) -- **ParkerVision, Inc.**(NASDAQ:PRKR), a developer and marketer of technologies and products for wireless applications, today announced results for the three months ended March 31, 2018.

First Quarter 2018 Summary and Recent Developments

• Products

- Milo® products to be featured on 'Designing Spaces' segment airing on Lifetime television beginning May 31, 2018.
- Television launch of Milo products by national retail firm expected in second quarter of 2018.
- Milo Single-Pack, which can be installed as a stand-alone system for smaller homes and apartments or as an add-on to an existing Milo system, is expected to begin shipping in second quarter of 2018.
- National media campaign under development with expected launch in third quarter of 2018.

• Licensing/Patent Enforcement

- Supplemental briefs filed in Germany in infringement action against Apple for products using Intel chips with a final decision in this case expected in late second or early third quarter of 2018.
- Case management conference in the U.S. district court case against Apple and Qualcomm to be held May 17, 2018 to facilitate scheduling of the claim construction (Markman) hearing and related technology tutorial.

Jeffrey Parker, Chairman and Chief Executive Officer, commented, "As promised last quarter, we continue to improve Milo by broadening our offering and improving our app. We are extremely excited about the upcoming television exposure scheduled for our Milo products as well as the expansion and refinement of our product offerings. In addition, we have engaged a national direct sales and marketing partner with a proven track record in building brand awareness and driving sales for a variety of consumer products. We anticipate our national media campaign, including television, radio and print ads, will launch in the third quarter of this year. We believe these initiatives will translate into significant revenue growth for our Milo products in the near-term."

Mr. Parker continued, "We are confident that the additional brief recently filed in Germany in our infringement case against Apple clarifies our infringement arguments for the court and supports the injunction we seek in this matter. We look forward to a final decision in the near future."

Non-GAAP Financial Measures that Supplement GAAP Measures

We use both generally accepted accounting principles ("GAAP") and non-GAAP financial measures for assessing our operating performance. The non-GAAP measures we use include Adjusted Net Loss and Adjusted Net Loss per Share. These non-GAAP measures exclude the effect on net loss and net loss per share of (i) changes in fair value of our contingent payment obligation and (ii) share-based compensation expense. We consider these non-GAAP measures to provide relevant supplemental information to assist investors in better understanding our operating results. These non-GAAP measures should not be considered a substitute for, or superior to measures of financial performance prepared in accordance with GAAP. A reconciliation of these non-GAAP financial measures to the most directly comparable GAAP measures for the three ended March 31, 2018 and 2017, respectively, follow:
